Edison International Awards LAHC Foundation \$25,000 STEM Scholarship Grant

WILMINGTON, CA- This is the second year in a row that Edison International has supported STEM scholarships at LAHC. Last year, Edison International provided 33 STEM scholarships ranging from \$500 to \$1,200. "We are delighted to receive support from Edison International, support from the business community is critical to student success today", said David Gascon, President of the LAHC Foundation.

Peter Bostic, LAHC Foundation Officer announced that the LAHC Foundation is dedicating this year's STEM Scholarships in memory of Darla Vasquez, Southern California Edison Corporate Giving Advisor and Grant Administrator who suddenly passed away at the end of 2020. "Darla was so excited to see the progress that LAHC was having with changing the face of STEM" said Bostic.

If you are interested in supporting STEM scholarships and building a STEM Endowment at LAHC contact Peter Bostic at Bosticpf@lahc.edu.

"I'm extremely honored to have been provided this opportunity to continue furthering my education one step at a time. I would like to thank you for your long and extreme devotion to helping STEM students across the country like myself. Your support means the world to us and throughout our journey our hearts will always remember the hope and support that Edison International has provided. Thank you for your time and dedication to your community.

Carlos Alvarado, 2020 LAHC/
Edison International Scholar

Thank you Los Angeles Harbor College/Edison
International!

With much love and respect,

Carlos Alvarado"
